

Use your imagination- Draw yourself as a whale

Orca Scientists,

What would you look like if you were an orca? Would you have a tall straight dorsal fin or would it be curved like the crescent moon. Would your saddle patch, the grey behind your dorsal fin, be puffy like a cloud or crooked like a hook. What about your eye patch, pectoral fins and your fluke? Would they have scars on them or would they be perfect? Now is your time to exercise your imagination and picture yourself as a whale. Use the pictures below to get some ideas and then off you go. Remember each whale, like yourself is unique.....Don't forget to draw in your habitat too!

(Use the space below to draw yourself as a whale)
